

## Report from Jharkhand

# Dharna on Problems

**Four** Marxist Leninist Parties, namely CPI (ML), PCC, CPI(ML)ND and CPI(ML) RS successfully held a one day dharna and meeting on Nov 19, 2018 in front of Raj Bhavan in Ranchi, Jharkhand. The activists from different areas of Jharkhand have taken part in the dharna and meeting. The red flags fluttering at the venue of dharna and the revolutionary songs had provided an inspiring backdrop for the programme.

The Samanvay Committee of four parties has organized the dharna and meeting to oppose the communal fascist forces, the general land acquisitions; violation of promises by the rulers to the people; suppression of workers and peasants and for the return of lands grabbed from the people; land reforms and the rights of people. Com. Shambhu Mahato, Com. D.C. Gohai, Com. Vyas Tiwari and Com. Vasisht Tiwari have presided over the meeting. Besides the comrades of Presidium, many other comrades also have addressed the meeting. They include Siya Sharan Sharma, Sagar Behera, Goutam Bose, Birsa Hembrum, Mangal Marandi, Jasna Kachhap, Raj Marandi, Shankar Naik and others. They explained six points of an Appeal to the Governor. They expressed anger at the communal hatreds that are sought to be aroused in Jharkhand as well as the entire country by the forces of Hindutva. They have pointed how these forces are pushing the country's unity to a dangerous brink and turning the idea of patriotism into communal chauvinism. They have explained that the corporate forces and communal fascist forces are helping each other. Mad hunger of the foreign and Indian big corporates for super profits is at the root of economic crisis plaguing our country. Today, while the MNCs and Indian Corporate Houses are earning super profits by looting our people, the vast masses of common people are weighed by ever growing unemployment and ruined by popularization. Most of the parliamentary parties, ruling as well as the opposition parties, conspicuously, never debate the economic and political policies of the country. It is only because they have nothing to differ on these policies. But, in reality, the roots of the crisis faced by our country are right in these policies. These election – oriented parties seemingly criticize each other. But, at the same time, they are feeding the common people with false promises of a better future. We must, therefore, strive to make the people conscious by bringing the policies of ruling classes into wide debate.

The meeting ended with revolutionary songs.

Later, the comrades of Pre-sidium went the State Governor in a delegation and presented an appeal signed by the leaders of four Organizations.
