

JUSTICE-A PLAYTHING IN THE HANDS OF RULERS AND RULING PARTIES!

Time and again the people of our country are told that our judicial system and rendering justice to people are impartial, independent without favour or prejudice towards anybody. Our rulers and ruling classes grandly claim that it is the virtue of our judicial system-a virtue of our democracy.

On the other hand the rulers in power pose as if they are the champions fighting against terrorism committed to end terrorism.

But the experience of people clearly shows that all that was an empty talk and propaganda. The rulers would put the laws into vogue in a selective and differentiated manner where the innocent people are harassed or punished and favoured ones can evade or escape the legal action and punishment notwithstanding with the gravity of the crimes they committed.

A number of terrorist attacks occurred in 2007 and 2008 at Mecca Masjid in Hyderabad, the Samjahuta express and the Azmeer Sharif Dargah (all in 2007) and Malegam (2008) occurred killing muslims. The investigation agencies have found out that the perpetrators and the actual persons who committed these terrorists blasts had affiliations with RSS and kindred out-fits and the victims were muslims. Ample evidence was gathered to establish that they have committed these acts. One person Aseemananda whose real name was Naba kumar was involved in all the cases, besides persons like Sadvi Pragya Singh, and a retd Lt-colonel (retd) Shrikant Pandit with others are involved in Malegam blastings case.

With this chain of events led to the coinage of the expression “Saffron Terror” or “Hindutva terror” came in to usage.

When the B.J.P government came in to power in 2014, systematically all the accused began to be set free in these cases. As a last case, the accused in Samjoutha express case were acquitted by the NIA court in March 2019 ‘due to lack of evidence’ including Swami Aseemanand. This Swami Aseemanand himself had confessed in 2010 before NIA that he and others had not only committed the Samjautha attack but they are involved in all the other blast cases.

These acquittals indicate that the investigating agencies like NIA, who are under control of the central government, have been directed and asked to dissolve the cases against the accused and the real culprits.

In this connection it is relevant and note-worthy, to reach to such a conclusion on the statement of Rohini Selini, Special public prosecutor in Malegaom blast case, in 2015 that she was told by the NIA to go soft in the case. Salini has later been dropped as a prosecutor in the case.

Thus the justice is defeated and buried by the very rulers and ruling party B.J.P in power and that their claims of fighting against terrorism and dispensation of impartial justice etc are nothing but false claims to hood-wink the common people!
