

**HAIL AND STAND BY THE PEASANTS STUGGLING FOR
THE REPEAL OF ANTI-FARMER, ANTI-PEOPLE AND
PRO-CORPORATE CENTRAL LAWS;
DENOUNCE THE VINDICTIVE POLICY OF CENTRAL
GOVERNMENT**

The peasants as well as the general masses of people today are in the thick of most difficult and challenging struggle for the last more than one month against the BJP led Central Government in Delhi borders, its surroundings as well as throughout India for a total and unconditional repeal of three Central laws which are aimed at ruining the peasantry, allowing the Indian Corporate Houses and the imperialist agencies to indulge in an unrestrained loot and control of the agriculture, rural economy and peasants' life in the name of contract farming, trade, etc., and denying the farmers the statutory right to MSP for their produce. The **Central Committee of CPI (ML)** whole heartedly extends its supports and solidarity to this just and democratic struggle. It hails fine spirit of unity, discipline, sacrifice, resolve and perseverance in struggle shown by the millions of struggling peasants and their leadership. It is really commendable. We believe that these qualities ensure the necessary strength to the struggling people to tide over all the difficulties and herald their struggle in victory.

The Central Govt. is utterly insensitive and vindictive towards this just struggle. It is using every method to mislead, confuse, divert, divide, slander and brutally suppress the struggle. It is also using the methods of tiring out the leadership and people by engaging them in unproductive talks. It has thrown out all the democratic norms and pays a deaf ear to the concerns and main demands of millions of the toiling peasants and people.

Most laudably, the present struggle is receiving massive support and solidarity from democratic in India and abroad. It is participated by the people of all ages, including those in advanced age, and a large number of women. Brutal repression, biting winter chill and other hardships are failing to deter them and weaken their resolve to fight for their just cause. Already 40 peasant fighters have lost their lives in the struggle. We pay our wholehearted respects and Homage to the Martyrs. We believe that these sacrifices would always be remembered by our people and continue to inspire the present and future generations.

We are one with the struggling people. We are doing everything in various parts of our Country to expose the disastrous consequences of new Central laws, educate, organize and move the masses of toiling people into protest and solidarity actions to strengthen the struggle for a common cause and herald it in victory. We hope and wish that this struggle will add strength and momentum to the struggle of the toiling and oppressed people of our Country to free themselves from the stranglehold of Indian and imperialist looters. **Long live the unity and just struggle of peasants and people.**
