

# **ON CHALLENGES IN THE PRESENT POLITICAL SITUATION**

Today, once again, not only farmers' movement but the working class movement is also awakening after introduction of the Labour Codes. Movements of other classes and sections are also getting intensified. On the other hand, it is also clear that world capitalism has got stuck in the cycle of a long and continuous economic crisis. In fact, it is a general crisis of world capitalism which has transformed into an ever-deepening crisis. This crisis won't only intensify the attacks on workers- peasants, but all the intermediate sections of the common masses. There is a possibility that this may soon turn into a crisis that would cause civil war-like situation in most countries of the world, including developed countries, because not only the working class but whole common masses of all countries are gradually coming out on the streets in resistance against it. Therefore, 'What is the real solution to this crisis?' has become a burning question of today's times. The current situation of the country and the world has become much more grave than when the Farmers' Movement was going on. We anticipate that this economic crisis and onslaught will soon serve to educate the masses that the solution to both the crisis and onslaught now lies in the complete overthrow of capitalism itself. Now it is up to the vanguard forces of the working class to decide whether this should be made the central slogan of all mass movements or not. Capitalism and its irreconcilable crisis is the breeding ground for fascism. The situation that is being created is full of calamities; but it is also full of favorable opportunities which demand that the working class and its vanguard forces, together if possible, come forward in the 'struggle' to take the political leadership of the 'whole country' against the reactionary-opportunistic politics in order to take charge of the situations.

Today, as we are making preparations for the Convention in Delhi on the 13<sup>th</sup> memorial day of Com. Sunil Pal, this is the political condition of the country and the world that we have to face. Especially the difficult challenges in path of the working class movement are once again testing our mettle. We are glad that we have set the Convention's topic accordingly. We will also be presenting an approach paper for a serious discussion on it. Its responsibility has been given to PRC CPI (ML). Hopefully, this will give rise to a serious and fruitful discussion.

## **AN APPEAL**

The working class along with its vanguard forces can overthrow the rotten capitalist system, that is pushing not only the working class but the entire human race towards destruction, only after proper deliberation on this main issue facing the proletarian politics

in the country today. We believe that we have no better way to remember a fearless and unyielding revolutionary leader like Com. Sunil Pal and truly pay our tributes to him than this. We want to say that we remember him fondly. Comrades, let us all remember Comrade Pal as well as thousands and lakhs of revolutionary martyrs like him from our heart, and continue working with even more fervour for realisation of our common dreams of building a new world. Red salutes to Comrade Sunil Pal and all revolutionary martyrs!
