

Oppose Zionist Attack on Palestine

The CC of the CPI (ML) along with all the democratic and peace-loving people of the world opposes the heinous attack on the Palestinian land of Gaza strip by the Zionist government of Israel. All over the world people have come out on the streets to show their solidarity with the valiant resistance by the Palestinian forces. Even the Jews in the USA came out in thousands to register their opposition to Zionism and the war on Palestine.

The CPI(ML) while upholding the resistance of the Palestine people strongly demands that Zionist aggression on Palestine areas must be stopped forthwith and also demands opening up of access to the besieged Gaza Strip by outside world for humanitarian aid and ambulation of wounded people.

The CPI(ML) strongly deplores continuous airstrike by Israel on hospitals, schools, refugee camps and places of worship killing thousands of civilians which is nothing but genocide of worst kind.

The CPI(ML) takes note of Modi government's role of supporting Zionists in a roundabout way by abstaining from voting on UN resolution to immediate stoppage of war against the popular opinion of Indian people. Later on under the pressure of Arab world it opposed new occupations and settlements by Israel in Palestinian land without opposing the war. The CPI(ML) also notes that Israel has trampled upon resolutions after resolutions by the UN at the behest of the US and its western allies.

The CPI(ML) calls upon the people of the world to oppose in every occupations a Palestinian land by Israel and armed attacks by the Zionist forces to occupy and forced settlements in Palestinian land. The CPI(ML) demands that the UN should recognise Palestine including Jerusalem, Gaza Strip and Golan Heights as an independent Palestine state.

Glory to the Palestinian Resistance!

Down with US-Israel Clique of Occupation Force!

People of World come out Opposing US-Israel Barbarism in Palestine!
