

# **The Resistance has Fulfilled its Promise to Bury the Zionist Elite Forces in the Sands of Gaza**

## **The Announcement of the Withdrawal of the Golani Brigade from the Strip is Evidence that the Resistance has Crushed this Brigade**

The Popular Front for the Liberation of Palestine considered the announcement by Zionist media of the withdrawal of elite forces from the Golani Brigade from the Gaza Strip, after suffering heavy losses, as evidence that the resistance was able to crush this brigade, killing a large number of its leaders and officers in a new and resounding defeat for this defeated army and its elite forces.

The Front affirmed that the resistance, engaged in fierce clashes with the Zionist enemy, has fulfilled its promise to bury the Zionist elite forces in the sands of Gaza, turning the alleys and rubble of houses and axes of engagement into ambushes and death traps, managing to kill a large number of officers of the Zionist entity and destroy hundreds of vehicles, armored vehicles, tanks, and troop carriers.

The Front concluded its statement by affirming that victory will inevitably be the ally of the resistance, and our heroic fighters will continue to return the officers and soldiers of the occupation to their criminal entity in coffins, or to rehabilitation centers for physical disabilities, or to psychiatric clinics; as this defeated army, armed with the most deadly and advanced American weapons, collapsed and was defeated in a resounding defeat before the Palestinian fighter who proved to be the most ready and highly trained, possessing the will, determination, and courage to defeat brigades and elite forces of this criminal enemy.
