

Rise in Rage against the Fascist ABVP Attack on JNU Students

The Fascist goons have unleashed attacks on the students of Jawaharlal Nehru University, who were fighting against the RSS-JNU administration nexus, demanding students' union elections. Yesterday night, when the students were organising a general body meeting to demand the JNUSU elections, ABVP goons attacked the students. They started arbitrarily hitting the students with bamboo sticks, severely injuring many students, with many having been rushed to the hospital and trauma centre. Comrade Sourya, an organiser of Revolutionary Students Youth Campaign, was severely injured, along with many others.

RSYC strongly condemns the Fascist attack on JNU students.

The right to form a students' union is a basic democratic right of the students. We have seen previously, in spite of the students' demands to hold the elections, the JNU administration, which has become nothing but the stooge of the Fascist forces, is maliciously hindering the process. And the ABVP goons too are continuously disrupting the students' general body meetings.

RSYC supports the students' demand to elect a students' union in JNU and demands to hold students' union elections in all universities and colleges.

The Fascist forces are trying to silence any kind of dissent emanating from the campuses, from the students community (as well as from the toiling sections of the country). They are trying to do away with any kind of ideological opposition too. Be it JNU or DU, AMU, Allahabad University, Jamia Milia, Jadavpur university among others, the Fascist forces have repeatedly unleashed vicious attacks on the dissenting students in the recent past. These will invariably be beneficial for the capitalist class, who are keen to rapidly privatise the education sector (along with other sectors too) and who are proactively coaxed by the BJP-RSS Govt. RSYC stands firmly opposed to the Fascist and Neoliberal corporate attacks upon the students community and calls for building a revolutionary students' movement up against the aforesaid and to carry forward the struggle towards a just education system, towards a just society.

Resist Fascist Onslaught on Educational Institutions
